

# I WILL EAT RIGHT-SIZED PORTIONS!

EMPOWER YOURSELF.

## Don't sweat it – you can do it!

A big meal adds extra calories, and extra calories mean more pounds on you! So think small. Use smaller plates and eat smaller bites to help you eat the right amount so you don't overeat. Slow down and take time to enjoy your meal. An enjoyable, right-sized meal will make you and your waistline happy.
